

PAINEL RIPADO ACÚSTICO GS

ACOUSTIC SLAT WALL COVERING | REVÊTEMENT MURAL EN LATTE ACOUSTIQUE

INTERIOR
Interior | Intérieur

A GS CONCEPT acaba de lançar uma das grandes tendências do momento: o painel ripado acústico! Desenvolvido através de materiais de elevada qualidade, com manga acústica em PET que reforça e otimiza o conforto acústico de qualquer ambiente, graças ao seu isolamento de feltro incorporado e o efeito 3D das ripas em MDF revestidas em folha de madeira que absorvem as ondas sonoras.

O design com personalidade, que se destaca pelo seu elevado desempenho técnico e harmonia estética. É ideal para remodelações e otimização de projetos, proporcionando uma decoração requintada e repleta de dinamismo e caráter. A simetria perfeita entre o design inovador e a performance acústica!

(EN)

GS CONCEPT has just launched one of the biggest trends of the moment: the acoustic Slat Wall Panel! Developed using high quality materials, with an acoustic PET sleeve that reinforces and optimizes the acoustic comfort of any environment, thanks to its incorporated felt insulation and the 3D effect of the MDF slats covered in wood veneer that absorb sound waves.

The design with personality, which stands out for its high technical performance and aesthetic harmony. It is ideal for renovations and project optimization, providing a refined decoration full of dynamism and character. The perfect symmetry between innovative design and acoustic performance!
